9. To Discuss the Output of the Islamabad Governance and Provincial Autonomy Convention

President Sardar Tahir Mehmood said that it was to the credit of the sitting Executive Board that it had not only highlighted the problems faced by the business community at large but had also proposed viable solutions for their resolution.

He briefed the House on the key outcomes of the Islamabad Governance and Provincial Autonomy Convention, which was attended by representatives from various segments of society. The President emphasized that the business community, being a major driver of economic activity, has no meaningful representation in key government institutions, particularly the Capital Development Authority (CDA), whose Board is composed entirely of government officials.

Against this backdrop, he stated that a **nine-point Charter** was deliberated upon during the Convention. The Charter was subsequently adopted as a Declaration, bearing the signatures of nearly 600 participants, and was formally presented to the Chief Guest, Dr. Tariq Fazal Chaudhry, Minister for Parliamentary Affairs.

The President informed the House that a **27-member Assembly for Islamabad** has already been provided for through legislation; however, no meaningful consultation was undertaken with the relevant stakeholders. He said that the primary objective of the Convention was to ensure that the proposals and concerns of the business community are duly incorporated before the proposed framework receives final approval from the Prime Minister.

Key Demands Outlined in the Charter:

- Establishment of a **consolidated and fully empowered Assembly for Islamabad**, headed by a Chief Executive with adequate executive powers to effectively manage the affairs of the capital.

- Meaningful representation of the **business community and other key stakeholders** in the governance structure of Islamabad, particularly in institutions responsible for economic and urban development.
- Empowerment of the elected local government to address business-related issues, improve the **ease of doing business**, and create a more conducive environment for investment and economic activity.
- In **Phase II**, after a period of five years and subject to a comprehensive review and the consent of all provinces and political parties, consideration may be given to granting Islamabad the status of a **province/federating unit**.

The President clarified that the demand was **entirely apolitical**. As taxpayers, stakeholders, investors, and contributors to the national economy, the business community seeks an effective, representative, and fully empowered governance structure for Islamabad that can address the city's economic and administrative challenges and facilitate sustainable growth.

10. Approval of Membership Application.

The House unanimously approved the new membership applications, subject to the completion of any missing documents or required information, if applicable.
